Subject: Disco application: letter of interest

Please be advised that Human Care Services, a not-for-profit agency, servicing the needs of the developmentally delayed population, is interested in becoming a DISCO. Human Care Services wishes to assist in meeting the long term care needs of individuals with developmental disabilities. This Agency has a proven track record of providing individualized care and coordinating long term supports and services for individuals with developmental disabilities. Human Care Services has provided excellent, person centered care to a minority and underserved population since 1997. As such, we have developed partnerships with other providers and our commitment to care is evidenced by our outstanding reputation and our deficiency free audits.

Human Care Services has a strong and active Board of Directors who support the concept and the mission proposed and promulgated by OPWDD.

It is our intent to continue providing high quality services in a best practice format to individuals within the five boroughs of New York City.

Respectfully submitted,
Devora Thau, MHCA, LNHA
Executive Director/COO
