

DSP Competencies Video Survey

Instructions: For each of the scenes in the video, estimate the percentage of your DSP's that will **consistently perform** as listed below.

Scenes	100%	75%	50%	25%	0%
Code of Ethics – Try to influence individual to do what is in the individual's perceived "best interest", but will adhere to the person's desires if not an immediate health or safety issue.					
Goal 1 – Putting People First – Will have the individual ask for help in a community setting rather than the staff doing it for her.					
Goal 2 – Build and Maintaining Positive Relationships - Will try to build positive relationships between a community member and the individual while the person is completing a chore/task.					
Goal 3 – Demonstrating Professionalism - Will professionally discuss disagreements with other staff and work toward a mutually satisfying resolution.					
Goal 4 – Supporting Good Health – Can effectively teach good health habits, utilizing multi-sensory techniques adjusted to the learning capabilities of the individual.					
Goal 5 – Supporting Safety – Knows the safety risk factors for each individual and is able to give support as needed.					
Goal 6 – Having a Home – Supports a person to learn how to become more independent by providing the minimum assistance possible while teaching new skills.					
Goal 7 – Being Active and Productive in Society – While supporting community connections, will enable to the person to learn essential community skills (such as pushing the button at an intercom).					
Overall - Estimated Score for all DSPs in your agency
