The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

The “New York State Information Security Breach and Notification Act” requires entities that conduct business with New York State and own or license “private” data to notify state residents affected by any security breach that results in unauthorized acquisition of the data. “Private” data is defined as unencrypted computerized information that can identify the individual, combined with one of the following data elements: (a) social security number, (b) driver’s license or non-driver identification number” or (c) financial account information such as credit card or debit cards numbers in combination with access codes or PIN numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000.
