The Vendor Responsibility Questionnaire is required for contracts \$100,000 and over. OPWDD will require a complete Vendor Responsibility Questionnaire with your bid proposal if the contract resulting from this procurement is valued at \$100,000 and over. Vendors/not-for-profit provider agencies are able to file the Vendor Responsibility Questionnaire (VRQ) online via the New York State VendRep System or may choose to complete and submit a paper questionnaire. To enroll in and use the New York State VendRep System, see the [www.osc.state.ny.us/vendrep](http://www.osc.state.ny.us/vendrep).

**O. Health Information Portability and Accountability Act (HIPAA)**

The Federal Department of Health and Human Services (HHS) established HIPAA Standards for Privacy of Individually Identifiable Health Information (The Privacy Rule). The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

**P. General Duties and Additional Responsibilities**

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

Contractor's negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor's agents, officers, employees, or subcontractors."

The "New York State Information Security Breach and Notification Act" requires entities that conduct business with New York State and own or license "private" data to notify state residents affected by any security breach that results in unauthorized acquisition of the data. "Private" data is defined as unencrypted computerized information that can identify the individual, combined with one of the following data elements: (a) social security number,

(b) driver's license or non-driver identification number" or (c) financial account information such as credit card or debit cards numbers in combination with access codes or PIN numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

## **16. Consultant Disclosure**

Effective June 19, 2006, contractors doing business with the State of New York in a "consulting" capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – "Form A" and "Form B".

In general, however, Form A is to be completed once upon initial contract award and is used to report "planned employment". Form B is required annually and reports on "actual employment figures" for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

## **17. Evaluation Criteria: Method of Award**

**OPWDD will select the responsible and responsive Bidder, who attended the Mandatory Pre-Bid Conference Call, that will provide the lowest Total Cost Per Season for each group. Awards will be made by group. A Bidder may bid on one or multiple groups and multiple contracts may be awarded. A Bidder may be awarded one or more groups. All sites included in a group are to be serviced by the winning Bidder.**

**Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated.**

**Should mathematical errors be made by the Bidder when calculating the Total Cost Per Season, the individual prices given for Seasonal Price per site will be the determining factor.**

**Alterations to the Cost Proposal Form may result in disqualification. OPWDD reserves the right to reject any and all offers**

**OPWDD reserves the right to request detailed listings of equipment and staffing, as well as proposed service routes from Bidder prior to award.**

**In the event of a tie bid, the award will be made by random selection.**

## Qualifications & Scope of Work

### SNOW REMOVAL AND ICE CONTROL SERVICES

#### Statement of Work

The following specifications cover Snow Removal and Ice Control Services for OPWDD community sites in Saratoga, Warren, and Washington Counties as listed in "Exhibit A Site Listing".

**Snow Removal and Ice Control Services detailed in the Scope of Work will be paid by one seasonal price spread out over six (6) equal installments as further detailed in Section VI. Accounting.**

**Snow removal shall automatically commence at the accumulation of 3 inches at the contracted site. The House Manager (HM) or designee has the right to call for additional service as deemed necessary for safety concerns. Service shall be provided 7 days per week and 24 hours per day.**

The Contractor's employees will adhere to all OPWDD policies and regulations, including but not limited to smoking, parking, etc.

#### Detailed Specifications:

It is extremely important during inclement weather that all efforts are made to have the homes and day program sites accessible and safe for the individuals and staff. The Contractor shall maintain the homes and sites to the specifications detailed below, keeping in mind the safety of the individuals and staff.

#### **I. SNOW REMOVAL & ICE CONTROL SERVICES**

**Please note:** Staff change shifts at approximately 7:00 a.m., 3:00 p.m. and 11:00 p.m. Our individuals leave their homes by 7:30 a.m. and return at 3:00 p.m. **The driveways and sidewalks MUST be clear of snow and ice during their departures and arrivals.** Pre-treatment of surfaces (anti-icing), plowing, sanding, and ice control (de-icing) services should be coordinated with these times in mind.

##### **A. Snow Removal**

OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.

1. Snow removal services are to be as needed, however the house manager or designee has the right to call for additional service as deemed necessary for safety concerns.

## Invitation for Bid

2. The maximum allowable accumulation of snow or slush is 3 inches. Snow removal may be preceded by the spread of anti-icing materials and/or followed by de-icing for ice control when appropriate or needed.
3. Work shall be continuous until all plowing and clearing has been completed, in accordance with the needs of each site.
4. At the conclusion of snowfall events that exceed 3 inches, all maintained surfaces shall be cleared to bare pavement.
5. In the event of blowing and/or drifting snow and/or formation of ice; maintained surfaces shall be serviced to obtain a safe environment.
6. The basic movement and/or plowing of snow shall be planned by the Contractor, however, the following guidelines must always be adhered to:
  - **All exits, fire escapes, and fire hydrants must be cleared of snow.**
  - Snow accumulation is to be cleared from driveways, parking areas, sidewalks and/or ramps leading from the front door to the driveway; paths to and from all egress doors; walkways to storage sheds, oil fill pipe, generators, and/or evacuation areas; and the evacuation point, located on the property, but apart from the residence. All walkways/paths must be cleared no less than 36 inches wide; enough to accommodate wheelchairs.
  - Plows cannot be used to clear sidewalks or walkways.
  - Any **decks** that are designated as an egress path shall be cleared a minimum of 6 feet wide from egress point to the evacuation point as identified by the house manager or designee. Cleared snow is to be removed from the deck.
  - Snow shall not be pushed against houses, vehicles, buildings, building entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, lamp posts, or emergency generators and fences
  - Banking of snow at the entrance to the roadway shall be limited in height to 2.5 feet, as not to restrict visibility.
  - Care must be taken not to damage or push snow on adjoining properties.
  - Mailboxes **MUST** be shoveled out to allow for mail delivery.

## B. Ice Control

Driveways, identified roads, parking areas, walkways and fire escapes, sidewalks, paths, decks, stairs for egress, paths to generators, paths for oil delivery, and paths to trash receptacles must be clear of ice at the hours indicated above, seven days a week, and whenever conditions of packed snow, freezing rain or frozen water occur; or when summoned by OPWDD House Manager or designee.

1. OPWDD residents often require an additional level of care regarding snow and ice removal due to functional mobility limitations.
2. Ice control will be accomplished by the application of pre-treatment (anti-icing) and/or de-icing materials. Contractor shall supply all appropriate Material Safety Data Sheets (MSDS) to the Plant Superintendent and to each contracted site's House Manager or designee.

3. **Ice control materials are to be provided by the Contractor** and applied at rates and densities sufficient to maintain sidewalks, roadways and parking areas reasonably free of ice and snow in an effort to minimize potentially slippery conditions.
4. **Sidewalk ice control** will be accomplished by the application of calcium chloride or magnesium chloride, also **provided by the Contractor**.
5. Contractor may be requested to perform additional applications of de-icing material, as needed, by the house manager or designee. This may be performed as a stand-alone process, e.g., ice storm, sleet, melting snow that refreezes.
6. Should ice accumulate to a thickness that becomes unmanageable by chemical applications alone, Contractor may be required to break up and remove ice by other means.

## II. EQUIPMENT & STAFF REQUIREMENTS

Contractor must use sufficient size plows and have commercial quality salt/sand/anti-ice/de-ice material spreading equipment to remove snow and prevent accumulation of ice from the driveways and parking lots at the locations. Manually broadcast spreading material with a shovel from the bed of a pick-up truck does not provide sufficient coverage to driveways and parking lots. Only qualified operators and proper equipment may be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas.

Contractor shall have adequate staff and equipment to accomplish the snow removal and ice control services without delay. OPWDD reserves the right to request detailed listings of all equipment, staffing, and service routes from Contractor.

The Contractor shall cooperate with house manager or designee. The Contractor will comply with safety and security requirements imposed by the site. Any conditions found that prevent the Contractor from completing the work identified in this specification need to be discussed with the house manager or designee.

Contractor must provide a phone number for accepting calls 24 hours a day, seven days a week. This must be submitted with the quote and be available throughout the winter season. The Capital District DDSOO Business Office must be notified immediately of any phone number changes.

Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of commercial snow and ice control services.

OPWDD will not be responsible for damage caused to the Contractor's equipment during the course of this contract unless it can be shown that OPWDD was notified of a condition not covered under this contract and did not make arrangements to correct it in a timely fashion.

### III. ADDITIONAL REQUIREMENTS

#### A. Quality of Service

The Contractor shall perform all services associated with this Scope of Work to the satisfaction of OPWDD. The quality of service will be subject to inspection by OPWDD. If the quality of service is not satisfactory, and it be deemed that the Contractor is not meeting the requirements of this Scope of Work, the Contractor shall be notified of those deficiencies and it will be the Contractor's responsibility to make the necessary corrections within 3 hours after receipt of such notice. In the event the Contractor does not correct the deficiencies within that period, OPWDD may terminate the contract.

#### B. Fines

Sidewalks and access roads that are not maintained by Village, Town, County or State agencies must be cleared. **Any fines received as a result of failing to clear these walkways are the responsibility of the Contractor.**

#### C. Vehicle Removal

Under no circumstances shall the Contractor move any staff owned or State- owned vehicles. It is highly recommended that the Contractor call each site 30 minutes prior to arrival to give staff time to move the vehicles. It is to be noted that there may be occasions when staff are unable to move vehicles due to staffing levels. The Contractor is to do the best they can, given the circumstances.

#### D. Snowplow Damage

The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures or neighboring properties caused by the contractor's employees or equipment. The Contractor must notify the house manager or designee immediately in the event of causing damage to the property, i.e., buildings, sheds, paved areas, or the property of neighbors adjoining OPWDD property. The Contractor will be required to repair/replace damaged property within 30 days after weather permits. If the damage is not satisfactorily repaired within 30 days after weather permits, OPWDD shall have the repairs made and will bill the Contractor or reduce payment for the total cost incurred as a part of OPWDD's repair effort.

If damage to lawn occurs, the Contractor must repair by replacing sod, topsoil, and seed around the perimeter of sod; or use screened topsoil, seed, and Penn mulch, re-rake and roll, to return area to pre-damage condition.

The snowplow Contractor must complete all snowplow damage repairs by **April 30<sup>th</sup> of the calendar year**. If the repairs are not completed by April 30<sup>th</sup>, OPWDD may find an alternative

Contractor to complete the repairs. The cost for these repairs will be billed to the snowplow Contractor that caused the damage. Failure to complete the snowplow damage repairs by April 30<sup>th</sup> may affect final payment, cause possible charge backs to the Contractor, and may affect the continuation of the snowplow contract. **Final payment of the season will not be made until the Business Office is notified that all damage has been satisfactorily repaired.**

If the Contractor causes damage to a staff or state vehicle, the Contractor must notify the house manager or designee and the Capital District DDSOO Business Office immediately, or in the event it happened after hours, as soon as possible the next business day.

The Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person, if it was a personal vehicle.

#### IV. SNOW REMOVAL/PUSHBACK

Only OPWDD or Capital District DDSOO's Business Office Administration, on a case by case basis, may authorize snow removal with heavy equipment and the push back of snowbanks, etc. These services will be considered outside the contract and must be billed separately. The site's current Contractor will be asked if interested in providing a quote for this additional service.

If the site Contractor decides to provide a quote, and is awarded the work, (s)he will be responsible for all plow damage repairs at the end of the season, including any that may occur due to the snow movement process.

If the snowplow Contractor decides not to provide these services and/or another Contractor is procured, safeguards will be put into place to clearly outline each Contractor's responsibilities in case there is substantial damage caused by another Contractor. It will be the responsibility of the other Contractor to repair any damage caused by his/her services.

#### V. ASSIGNMENTS/SUB-CONTRACTING

The Contractor selected to do the work set forth herein shall not assign or sub-contract all or any part of said work without the express written permission of OPWDD Business Office Administration.

#### VI. ACCOUNTING
