The Federal Department of Health and Human Services (HHS) established HIPAA Standards for Privacy of Individually Identifiable Health Information (The Privacy Rule). The Privacy Rule (45 CFR Part 160 and Subparts A and E of Part 164) provides the first comprehensive federal protection for the privacy of health information. The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

P. General Duties and Additional Responsibilities

Maintain a level of cooperation with OPWDD necessary for the proper performance of all contractual responsibilities. Agree that no aspect of bidder performance under the Agreement will be contingent upon State personnel, or the availability of State resources, with the exception of all proposed actions of the bidder specifically identified in the Agreement as requiring OPWDD's approval, policy decisions, policy approvals, exceptions stated in the Agreement or the normal cooperation which can be expected in such a contractual relationship or the equipment agreed to by OPWDD as available for the project

completion. Cooperate fully with any other contractor that may be engaged by OPWDD. Agree to meet periodically with OPWDD representatives to resolve issues and problems. Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

“Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor’s negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor’s agents, officers, employees, or subcontractors.”

The “New York State Information Security Breach and Notification Act” requires entities that conduct business with New York State and own or license “private” data to notify state residents affected by any security breach that results in unauthorized acquisition of the data. “Private” data is defined as unencrypted computerized information that can identify the individual, combined with one of the following data elements: (a) social security number, (b) driver’s license or non-driver identification number” or (c) financial account information such as credit card or debit cards numbers in combination with access codes or PIN numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

Qualifications & Scope of Work

The Office for People With Developmental Disabilities (OPWDD) on behalf of the Central NY Developmental Disabilities State Operations Office (DDSOO) requires a qualified Contractor to provide **Snow and Slush Removal and Ice Control Services** at community sites in **Cayuga, Onondaga, and Oswego** Counties. A site listing with addresses and telephone numbers is included in Exhibit A – Site Listing.

The Contractor will, during the term of this Agreement, perform all **Snow and Slush Removal and Ice Control Services** described and specified in this Scope of Work.

I. General Requirements:

- A. Snow and slush removal and ice control services are required at OPWDD sites which are occupied by people with developmental disabilities including some who are confined to wheelchairs. OPWDD residents often require an additional level of care regarding snow, slush, and ice removal due to functional mobility limitations.
- B. Snow and slush removal and ice control services detailed in this Scope of Work will be paid by one seasonal price, spread out over six (6) equal installments as further detailed in section V. Accounting.**
- C. The Contractor selected to do the work set forth herein will not assign or sub-contract any or all parts of said work without written permission from OPWDD's Contract Management Unit.**
- D. Contractors must use sufficient size plows and have commercial quality salt/sand/calcium chloride spreading equipment to remove snow, slush, and ice from the driveways and parking lots at the locations. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide enough coverage to driveways and parking lots. Contractor will have adequate staff and equipment to accomplish the snow and slush removal and ice control services without delay. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.
- E. The Contractor's equipment will not be left at the respective sites after snow removal for a specific storm has been completed.
- F. The Contractor may, for the duration of each snow season, place visible markers in work areas.
- G. Contractor is to adhere to local/state noise control ordinances/laws and is responsible to follow all State, local, and municipal codes regarding the plowing of snow and slush from OPWDD property and roadways. Contractor must possess and provide, at no cost to the State,

appropriate licenses and permits associated with the provision of snow and slush removal and ice control services.

- H. Under no circumstance will the Contractor move any vehicles, personal or State owned. If vehicles block the driveway or parking areas, every effort must be made to have staff at the sites move vehicles to allow a complete clearing of parking areas and walkways. There may be occasions where staff are unable to move vehicles. Contractor is to inform House Manager or designee and perform services as best they can. See section III. **Detailed Specifications**, for further information.
- I. The Contractor's employees will adhere to all OPWDD policies and regulations, including but not limited to smoking, parking, etc. The Contractor will cooperate with House Managers and staff and will comply with the safety and security requirements imposed by the site.
- J. Pursuant to the conditions within this scope of work, the method of snow and slush removal and ice control, equipment used, and plan of action will be up to the Contractor's discretion.

II. **Service and Accumulation Requirements:**

- A. It is extremely important during inclement weather that all efforts are made to have the sites accessible and safe for individuals and staff. **To have accessibility, snow and slush removal will automatically commence at the accumulation of 3 inches at the contracted site. It is the Contractor's sole responsibility to ensure they are aware of when each site on this contract has accumulated 3 inches of snow or slush.** In the event of drifting snow and/or formation of slush or ice; maintained surfaces will be serviced to obtain a safe environment.
- B. Snow and slush removal will be ongoing, allowing no more than 3 inches of accumulation. At the conclusion of weather event, all maintained surfaces will be cleared to bare pavement and followed immediately by application of anti-icing materials. Snow and slush removal may be preceded by the spread of anti-icing materials. Anti-icing materials may also be used for ice control when needed before the end of a weather event, but it must be used immediately at the conclusion of a weather event following surfaces cleared to bare pavement.
- C. Contractor must be able to provide snow and slush removal and ice control services on a seven days per week, 24 hours a day basis. **Please note:** Staff change shifts at approximately 7:00 a.m., 3:00 p.m. and 11:00 p.m. and the program participants leave their homes by 7:30 a.m. and return at 3:00 p.m. To ensure the safety of all, any pre-treatment of surfaces (anti-icing), plowing, sanding, and ice control (de-icing) services should be conducted with consideration to the timeframes mentioned above.
- D. **The House Manager or designee has the right to call for additional service as deemed necessary for safety concerns as part of this contract.** Such calls for service are in addition to the automatically triggered 3-inch snow and/or slush removal requirement and may include the need for: snow or slush removal of less than 3 inches; snow removal from accumulation

due to drifting snow or windblown snow; ice control; egress clearing with ice control; or any other service described in this scope of work deemed necessary for safety concerns. Response time will be within two (2) hours of call. Response time is defined as the time in which the Contractor must arrive at the location that has requested the service and begins the requested service. Contractor must provide a phone number for accepting calls 24 hours per day and 7 days per week. OPWDD must be notified immediately of any phone number changes.

- E. The Contractor will perform all services associated with this Scope of Work to the satisfaction of OPWDD. The quality of service will be subject to inspection by OPWDD. If the quality of service is not satisfactory, and it be deemed that the Contractor is not meeting the requirements of this Scope of Work, the Contractor will be notified of those deficiencies, and it will be the Contractor's responsibility to make the necessary corrections. Such corrections will begin within two (2) hours of such notice, and all deficiencies must be corrected within three (3) hours of such notice. In the event the Contractor does not correct the deficiencies within three (3) hours of notice, OPWDD may terminate the contract.
- F. In the event the Contractor fails to provide services as stated in the Scope of Work, within the time frames listed above and the OPWDD is required to procure services from another vendor, the Contractor will be held liable for any costs to provide such services for the site(s) involved. In such a situation, the additional cost for these services will be deducted from any payments owed. If no payments are owed, the Contractor will be invoiced for the additional costs incurred by OPWDD.

III. Detailed Specifications:

5. The Contractor will submit the specifications of the ice melt to be used to the DDSOO Plant Superintendent's Office for approval prior to the usage of equivalent material. **Sodium chloride (rock salt) is not to be used on decks or concrete areas. Calcium Chloride is to be used on stoops and porches.**
6. Should ice accumulate to a thickness that becomes unmanageable by chemical applications alone, Contractor may be required to break up and remove ice by other means.

Invitation for Bid

7. It is the responsibility of OPWDD staff to de-ice walkways, paths, steps, paths to smoking areas, emergency exits, deck paths, and sidewalks. The cost for the de-icing agent for these areas is the responsibility of OPWDD.
8. At temperatures below 15 degrees Fahrenheit, abrasives such as sand, provided by the Contractor, may be added to enhance traction. Sand may be used combined with an approved ice control product; however, the ratio of sand to ice melt material should be no more than 50/50. This ratio can only be changed by the DDSOO Plant Superintendent or designee based on the effectiveness of the last application.
9. At the end of the season, all excess sand/salt must be removed from the premises at the Contractor's expense. The House Manager will determine the presence of excess salt/sand.
